## Build-a-Cookie Relay Race

We love our new cookies, don't you? Remember these yummy cookies based on package color, shape, and other ingredients! Team up with your troop, or be on a team of one, and go on a scavenger hunt for the ingredients needed to build your chosen cookie! An adult will check winners, and the first team to correctly find and build their cookie WINS! More instructions for set-up and gameplay are on the next page.

## How to play the Build-a-Cookie Relay Race:

### Set Up

Place the title pages for each team (Peanut Butter Patties, Peanut Butter Sandwiches, Caramel deLites, Toast-Yays, Caramel Chocolate Chip, and Lemonades) on the floor, around the room, or on a table. Scatter the 28 paper cards around the area.

### Team Assignment

Assign each team one of the "new" cookies. Each team will be responsible for finding the four paper cards that describe their cookie.

### Types of Pieces

The 28 paper cards are attached to this guide and contain three descriptors and the color of each team's cookie box. Cut out along the dotted lines and follow set-up instructions. Pay close attention to the details on each card!

### Team Collaboration

Work together as a team to find the four strips that match your assigned cookie. Be careful, though! There are four pieces that don't belong to any cookie.

### Verification

Once your team is confident that you've correctly assembled your cookie, the adult in charge will check the answer key. If you're correct, you're the winner! If not, incorrect slips go back in the center, along with other teams' mistakes.

### Winner Announcement

The first team to correctly assemble their cookie, as verified by the adult, is the winner! Celebrate your cookie-building success and enjoy the sweet victory!

### Note about deciding the winner(s):

When a team says they have completed their cookie, check their cards first. If any pieces are INCORRECT, all teams must reset those pieces (hide, mix up, etc). This is because the incorrect ingredients are likely another teams' correct ingredients. First team to build correctly, wins.
